

Domain <sup>1</sup>	Features assessed	AGE < 3;0 years	AGE 3;0 - 6;11 years	AGE 7;0 - 16;0 years
Oral motor	Structure & function	<b>Robbins &amp; Klee</b> (5-10 mins)	<b>Robbins &amp; Klee</b> (5-10 mins)	<b>Robbins &amp; Klee</b> (5-10 mins)
Speech	Intelligibility, phonetic inventory, dysarthria	<b>Conversational sample</b> (≥5 mins)	<b>Conversational sample</b> (≥5 mins)	<b>Conversational sample</b> (≥5 mins)
	Articulation, phonology	<b>Goldman Fristoe Test of Articulation-2</b> (10 mins) Must also do stimulability testing	<b>Goldman Fristoe Test of Articulation-2</b> (10 mins) Must also do stimulability testing	<b>Goldman Fristoe Test of Articulation-2</b> (10 mins) Must also do stimulability testing
	Phonological memory*	NA	<b>Children's Non-word Repetition Test*</b> (15 mins)	<b>Children's Non-word Repetition Test*</b> (15 mins)
Language	Receptive & expressive language, including semantics & grammar	<b>Preschool Language Scales-version 4</b> OR <b>version 5</b> (20 mins)	<b>Preschool Language Scales-4</b> (30 mins) OR <b>version 5</b> (30 mins)	<b>Clinical Evaluation of Language Fundamentals- version 4</b> OR <b>version 5</b> **(>30 mins) AND <b>Children's Communication Checklist-2</b> (10 mins, caregiver completion)
Literacy	Reading, spelling*	NA	<b>Wide Ranging Achievement Test -4*</b> (reading, spelling) (15 mins)	<b>Wide Ranging Achievement Test-4*</b> (reading, spelling) (20 mins)

<sup>^</sup>Can be used up to 6;0 years if children demonstrate developmental delay; \*Only for children who are highly tolerant of testing \*\*Please complete the receptive & expressive language subtests appropriate for the child's age that will enable the Receptive & Expressive Language Indexes to be calculated. Please record the conversational sample and e-mail to Dr. Angela Morgan (who is also happy to score or discuss findings on any other tests that are video-recorded or audio-recorded together with the local clinician if helpful). Please also record: data from recent psychological cognitive (e.g., IQ) testing; any other recent speech and language findings.

<sup>1</sup> Thank you for following the protocol closely. We appreciate you will use your clinical judgment to determine whether each assessment is appropriate. Please do not hesitate to contact Dr. Angela Morgan to discuss alternate tests if necessary: [angela.morgan@mcri.edu.au](mailto:angela.morgan@mcri.edu.au).
